

A REMINDER FROM YOUR WASHINGTON COUNTY ENGINEER

Our records show that you contracted to place dust control in front of your home/business last year. If you are interested in using dust control again this year, please contact one of the approved vendors on the front of this card.

IMPORTANT DATES:

April 30thDust control permits are due
May 5-9thCounty road crews prepare roads for
first application
May 12-23rdVendors apply dust control
July 21- Aug 1st.....County road crews prepare roads for
second application
August 4-15thVendors apply dust control
October 1-31st.....County road crews prepare roads
for winter

PERMIT FEES (*payable to vendor*):

Annual Permit for 2 treatments before May 1 st	\$ 5
Annual Permit for 2 treatments after April 30 th	\$45

PLEASE READ

The exceptional winter and spring weather has resulted in severely deteriorated gravel roads. As a result, Washington County will be working to reshape roads and applying roadstone throughout the summer months as conditions warrant. During this process of grading and rocking roads, dust controlled areas may be disturbed. Please be aware of this when considering dust control for this year.

Four green flags must mark your dust control area for the entire dust control season (May – October). Contact your local vendor to get your flags.

Visit www.washingtonroads.org for a copy of the dust control policy and other related information.
